

WAKE  
UP

# WHAT IS WOKE?

- It started out as an adjective derived from African-American Vernacular English meaning "alert to racial prejudice and discrimination".
- It was expanded to a broader awareness of social inequalities, such as sexism, identity politics and social justice.
- Today it has morphed to include "all" so called marginalized and minority groups in the social justice arena, incorporated LGBTQ+, transgenderism and has become a weapon of the political "left".

**To be 'woke' is to be awake; it is the state of not being asleep**
