IS GENDER DYSPHORIA A MEDICAL DISORDER?

Some Western countries have it classified as such.

eg: USA - Diagnostic and Statistical Manual of Mental Disorders (DSM-5)

“This was included as a mental disorder so that treatment could be paid for”

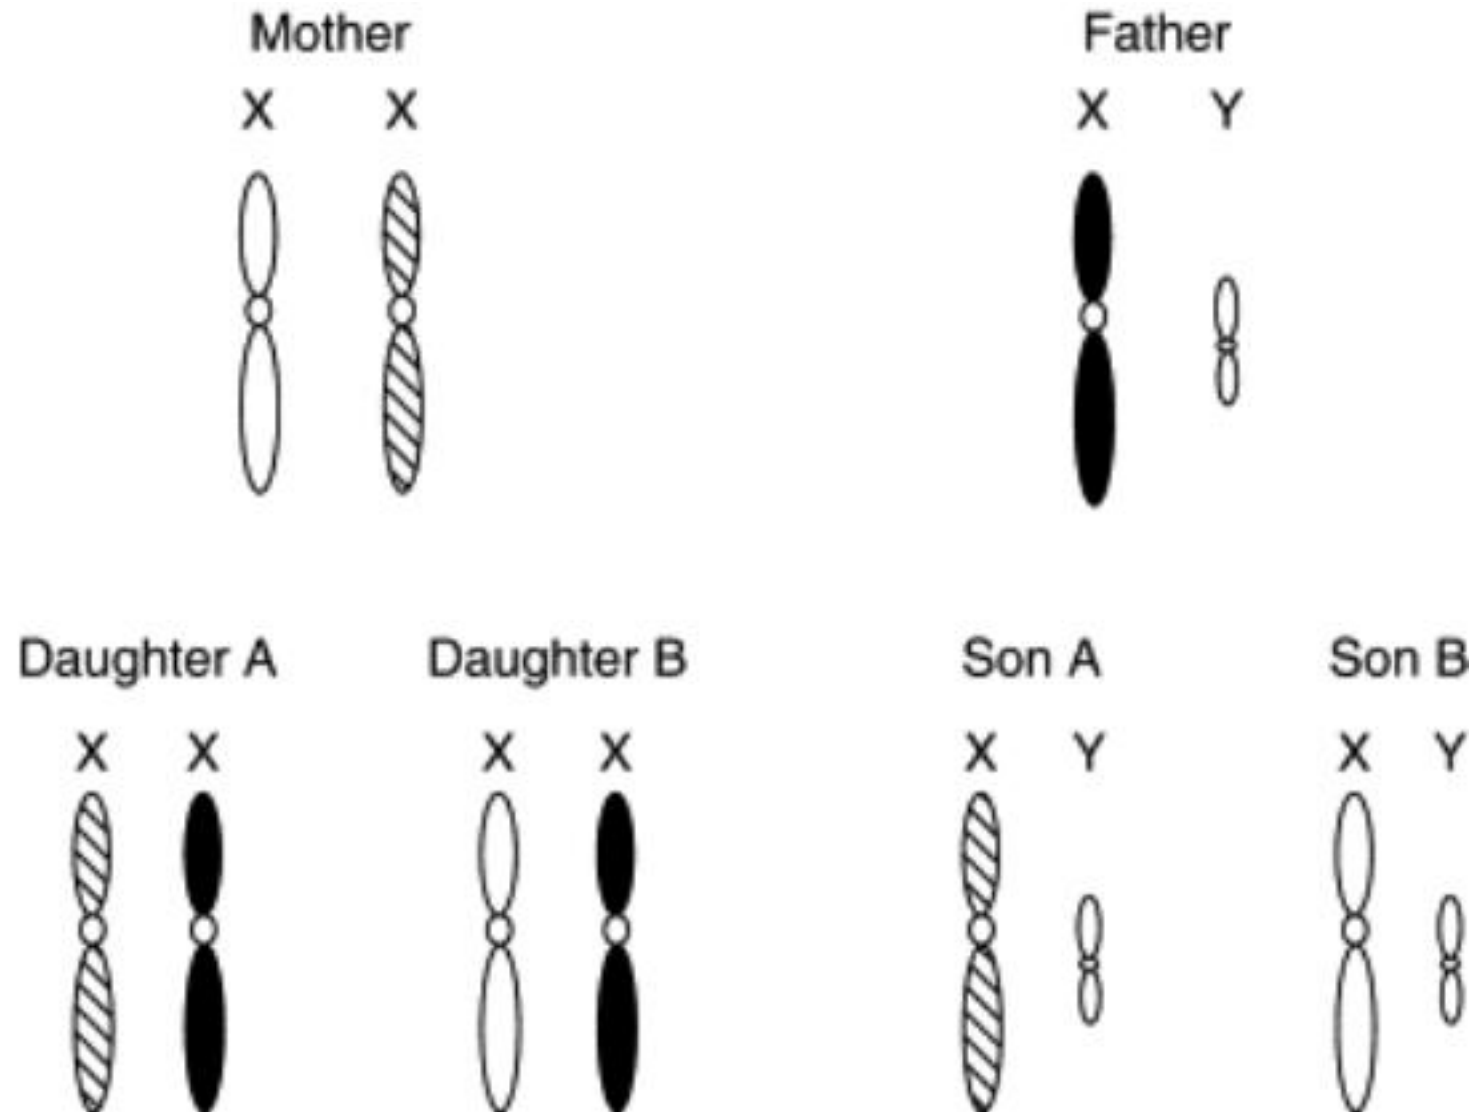

Definition:

A state of severe distress or unhappiness caused by feeling that one's gender identity does not match one's sex as registered at birth.

UK - NHS:

Gender dysphoria is not a mental illness, but some people may develop mental health problems because of gender dysphoria.
