Note: For OECD countries figures correspond to mean age at first marriage. For other countries, figures correspond to singulate mean age at marriage, which is an indirect estimate of mean age at first marriage. See Sources tab for a full definition.

# Share of women in the UK who were ever married at a certain age

# Share of men in England and Wales who were married by a certain age

Shown is the share of men who were married by a given age, broken down by the year of their birth.
